

Claros Analytics Software Install Guide

Getting Started

Download the software from the Client Portal: [Click Here to Login](#)

To download the Software, you might need Administrator permissions.
Contact your network administrator for assistance.

How to Download and Install

- 1 Log in to the Client Portal
- 2 Select your chosen application on the Dashboard or the top navigation menu
- 3 Scroll down to the Download section of the application page
- 4 Click on the compatible version of the application to begin your download

IMPORTANT: The Software version must match your Microsoft Office bit version (32-bit or 64-bit). Open any Office application, click File, then Account. Click About Word and your bit version will be listed at the top.

- 5 In your Download Folder, locate the application Zip file:

ActuarialAssistantSetup.zip	ExperienceMigrationSetup.zip
RiskDecisionSupportSetup.zip	ClarosReserveSetup.zip
ActuarialAdvisorSetup.zip	

Double-click on each file to begin. InstallShield Wizard will guide installation; follow prompts until completed.

Security Credentials

Every Software User requires an individual security credential that will be sent via email along with a security file for each application. These .txt files are encrypted and must be loaded into the appropriate directory to activate the Software after installation is complete.

Actuarial Assistant	C:\User\username\Documents\Claros Analytics\WSPAA2.txt
Risk Decision Support	C:\User\username\Documents\Claros Analytics\WSPDS2.txt
Experience & Migration Predictive	C:\User\username\Documents\Claros Analytics\WSPPEM2.txt
Claros Reserve	C:\User\username\Documents\Claros Analytics\CLARE2.txt
Actuarial Advisor	C:\User\username\Documents\Claros Analytics\WSPAV2.txt

Shortcuts

During installation, a shortcut will be created on your Start Menu for each software application.

Logging In

Once launched, you will log in to the software application using the User ID and Password listed in **READ ME.txt**

TRIAL USERS: All applications are set to use the same User ID and Password during testing (*these are case sensitive*).

User ID: Demo
Password: Demo

A Note About Archives

The Archive feature requires MS Office 2016 or later, or Microsoft Access 2016 Runtime. Make sure you select the bit version that corresponds to your MS Office product. Please read all instructions before downloading Microsoft Access 2016 Runtime.

Congratulations!

Installation and registration are complete!

If you require assistance at any time during this process, please contact us at nsachdeva@clarosanalytics.com or 609-275-6550 x203.
